### ABOUT EMMA

Emma is one of our qualified and registered Veterinary Nurses who has worked at Tameside Veterinary Clinic since 2021. Emma has always had an interest in this area and decided to develop her knowledge and skills further by undertaking a certificate in Physiotherapy and Rehabilitation. She has a big soft spot for O.A.P. pets who often need a helping hand later in life. Emma's aim is to improve your pets quality of life and them pain free to enjoy life to the fullest!

### Signs that your pet may need physiotherapy

- Struggling with stairs
- Moving slower than usual
- Resistance to jump
- Resistance to go for walks
- Limping and lameness
- Soreness and vocalising when getting up

### Benefits of Physiotherapy

- Improve joint range of motion
- Reduce inflammation
- Reduce adhesions in the joint
- Increase circulation
- Relax tight muscles
- Reduce pain
- Improve neuro function
- Improve quality of life
- Improve joint strength and flexibility
- Improve balance and co-ordination
- Reduce risk of injury

### Who is suitable for Physiotherapy & Rehabilitation?

- Senior pets
- Breeds that are pre-disposed to joint issues
- Pets with neurological deficits
- Pets with chronic pain
- Working dogs
- Dogs that have had orthopaedic surgery.
